INDEPENDENT AUDITORS' REPORT

Report No. 0078/TPC-GA/FID/18

**The Shareholders, the Boards of Commissioners and Directors
PT Indonesia Fibreboard Industry**

We have audited the accompanying consolidated financial statements of PT Indonesia Fibreboard Industry and its subsidiary, which comprise the consolidated statement of financial position as of December 31, 2017, and the consolidated statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of such consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on such consolidated financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether such consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

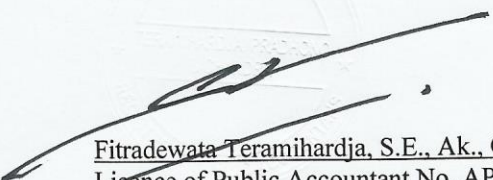

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of PT Indonesia Fibreboard Industry and its subsidiary as of December 31, 2017, and their consolidated financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Other Matters

Our audit of the accompanying consolidated financial statements of PT Indonesia Fibreboard Industry and its subsidiary as of December 31, 2017 and for the year then ended was performed for the purpose of forming an opinion on such consolidated financial statements taken as a whole. The accompanying separate financial information of PT Indonesia Fibreboard Industry (parent entity), which comprises the statement of financial position as of December 31, 2017, and the statement of profit or loss and other comprehensive income, statement of changes in equity, and statement of cash flows for the year then ended (collectively referred to as the "Parent Entity Financial Information"), which is presented as a supplementary information to the accompanying consolidated financial statements, is presented for the purposes of additional analysis and is not a required part of the accompanying consolidated financial statements under Indonesian Financial Accounting Standards. The Parent Entity Financial Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the accompanying consolidated financial statements. The Parent Entity Financial Information has been subjected to the auditing procedures applied in the audit of the accompanying consolidated financial statements in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. In our opinion, the Parent Entity Financial Information is fairly stated, in all material respects, in relation to the accompanying consolidated financial statements taken as a whole.

**PT INDONESIA FIBREBOARD INDUSTRY AND SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)**

1. GENERAL

a. Establishment of the Company

PT Indonesia Fibreboard Industry (the "Company") was established in Indonesia on September 24, 2007 based on the Notarial Deed No. 94 of Johny Dwikora Aron, S.H. The deed of establishment was approved by the Ministry of Justice and Human Rights of the Republic of Indonesia through its decision letter No. C-05183 HT.01.01.TH.2007 dated December 3, 2007. The Company's Articles of Association has been amended from time to time, the latest amendment was made by Notarial Deed of Silvy Solivan, S.H., M.Kn., No. 5 dated October 4, 2017, concerning the scope of activities. This amendment was approved by the Ministry of Law and Human Rights of the Republic of Indonesia in its decision letter No. AHU-0020708.AH.01.02. Tahun 2017 dated October 9, 2017.

Based on Article 3 of the Company's Articles of Association, the scope of activities, mainly in medium density fibreboard industry, veneer, laminated veneer lumber, sawn timber, barecore/block board, plywood, glue and wood working (moulding). The Company domiciled in Jakarta and located at Wisma ADR, Jalan Pluit Raya No. 1, North Jakarta, while the production plant is located in South Sumatra. The Company started its commercial operations in October 2012.

b. Commissioners, Directors and Employees

The composition of the Boards of Commissioners and Directors of the Company as of December 31, 2017 and 2016 are as follows:

Board of Commissioners

President Commissioner : Eddy Hartono
Commissioner : Surja Hartono

Board of Directors

President Director : Heffy Hartono
Director : Djojo Hartono
Director : Ang Andri Pribadi

Total remuneration incurred and paid to the Company's Commissioners and Directors totaled approximately Rp 3,8 billion and Rp 2,5 billion in 2017 and 2016, respectively.

As of December 31, 2017 and 2016, the Company and Subsidiary have a total of 653 employees and 707 employees, respectively (unaudited).

c. Subsidiary

The Company has the following Subsidiary:

Subsidiary	Principal Activity	Commencement of Commercial Operations	Domicile	Percentage of Ownership		Total Assets Before Elimination (in Billions Rupiah)	
				December 31		December 31	
				2017	2016	2017	2016
Held Directly by the Company							
PT First Light Pratama (FLP) Manufacturing	Industrial Glue	2008	Jakarta	99.60%	99.60%	4	4

FLP was established in Indonesia on April 7, 2008 based on the Notarial Deed No. 21 of Johny Dwikora Aron, S.H. The deed of establishment was approved by the Ministry of Law and Human Rights of the Republic of Indonesia through its decision letter No. AHU-25276.AH.01.01.Tahun 2008 dated May 14, 2008. FLP started its commercial operations in October 2012. On May 1, 2014, FLP has stopped its operation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)**

1. GENERAL (continued)

d. Completion of The Consolidated Financial Statements

The financial statements were completed and authorized for issuance by the Company's Board of Directors on March 21, 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statement of Compliance and Basis for Preparation of Consolidated Financial Statement

The consolidated financial statements have been prepared in accordance with Indonesian Financial Accounting Standards ("SAK"), which comprise the Statements and Interpretations issued by the Board of Financial Accounting Standards of the Indonesian Institute of Accountants.

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those adopted in the preparation of the consolidated financial statements as of December 31, 2016 and for the year then ended.

The consolidated financial statements have been prepared on the accrual basis, except for the consolidated statement of cash flows, using the historical cost concept of accounting, except as disclosed in the relevant Notes to the consolidated financial statements herein.

The consolidated statement of cash flows have been prepared using indirect method which classify cash flows into operating, investing and financing activities.

The reporting currency used in the consolidated financial statements is Rupiah, which is the Company and Subsidiary's functional currency.

b. Principles of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its Subsidiary as at December 31, each year. Control is achieved when the Company and Subsidiary is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, the Company and Subsidiary control an investee if and only if the Company and Subsidiary have all of the following:

- i) Power over the investee, that is existing rights that give the Company and Subsidiary current ability to direct the relevant activities of the investee,
- ii) Exposure, or rights, to variable returns from its involvement with the investee, and
- iii) The ability to use its power over the investee to affect its returns.

When the Company and Subsidiary have less than a majority of the voting or similar rights of an investee, the Company and Subsidiary consider all relevant facts and circumstances in assessing whether it has power over an investee, including:

- i) The contractual arrangement with the other vote holders of the investee,
- ii) Rights arising from other contractual arrangements, and
- iii) The Company and Subsidiary's voting rights and potential voting rights.

**PT INDONESIA FIBREBOARD INDUSTRY AND SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b. Principles of Consolidation (continued)

The Company and Subsidiary re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company and Subsidiary obtain the control over the Subsidiary and ceases when the Company and Subsidiary loses control of the subsidiary. Assets, liabilities, income, and expenses of a subsidiary acquired during the year are included in the consolidated financial statements from the date the Company and Subsidiary gain control until the date the Company and Subsidiary cease to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parent of the Company and Subsidiary and to the non-controlling interest ("NCI"), even if this results in the NCI having deficit balance. When necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies into the line with the Company and Subsidiary's accounting policies.

All significant intra and inter-group balances, transactions, income and expenses, and unrealized profits and losses resulting from intra-group transactions and dividends are eliminated on consolidations.

A change in the parent's ownership interest in a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Company and Subsidiary loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, NCI and other component of equity, while any resultant gain or loss is recognized in the profit or loss. Any investment retained is recognized at fair value.

Change of carrying value of investment transaction which derived from the issuance of new shares of Subsidiary to the Company is recorded as "Differences Arising from Changes in Equity of Subsidiary" account which is presented under "the Equity" account in the consolidated statement of financial position.

c. Account Receivables

Account receivables (if any) are recorded net of allowance for impairment of account receivables. The accounting policy for allowance for impairment is described in Note 2j.

d. Transactions with Related Parties

The Company and Subsidiary have transactions with related parties as defined under PSAK No. 7 "Related Party Disclosures".

The transactions are made based on terms agreed by the parties, which may not be the same as those of the transactions between unrelated parties.

All significant transactions and balances with related parties, have been disclosed in the notes to the consolidated financial statements.

e. Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is determined using the moving average method. Allowance for decline in the value of inventory is provided based on the review of the inventories condition at year end to reduce the carrying values of inventories to their net realizable values.

f. Prepaid Expenses

Prepaid expenses are amortized over the periods benefited using the straight-line method.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g. Fixed Assets

All fixed assets are initially recognized at cost, which comprises its purchase price and any costs directly attributable in bringing the asset to its working condition and to the location where it is intended to be used.

Subsequent to initial recognition, are carried at cost less any subsequent accumulated depreciation and impairment losses. At the end of each reporting period, the estimated useful lives and methods of depreciation of property and equipment are reviewed by management and adjusted prospectively, if appropriate.

Depreciation of assets starts when it is available for use. Depreciation is computed using the straight-line method over the estimated useful lives if the assets as follows:

	Useful lives years
Buildings and infrastructure	20
Machinery and equipments	8 - 16
Office equipments	4 - 8
Furniture and fixtures	4 - 8
Vehicles	4 - 8

Legal cost of land rights in the form of Business Usage Rights ("Hak Guna Usaha" or "HGU"), Building Usage Right ("Hak Guna Bangunan" or "HGB") and Usage Rights ("Hak Pakai" or "HP") when the land was acquired initially are recognized as part of the cost of the land under the "Property and Equipment" account and not amortized. Meanwhile the extension or the legal renewal cost of land rights in the form of HGU, HGB and HP were recognized in the consolidated statement of financial position and were amortized over the shorter of the rights' legal life and land's economic life.

Assets under construction represent the accumulated cost of materials and other costs related to the assets under construction. The accumulated cost is reclassified to the appropriate fixed assets accounts when the construction is completed and the constructed assets are ready for their intended use.

The costs of repairs and maintenance are charged to profit or loss as incurred; significant renewals and betterments are capitalized. When assets are retired or otherwise disposed of, their net book values are removed from the accounts and any resulting gain or loss is reflected in the consolidated statement of profit or loss and other comprehensive income for the year.

h. Intangible Assets and Deferred Charges

Landrights

The Company and Subsidiary adopted ISAK 25, Landrights, which has resulted to reclassification of deferred charges for landrights to cost of land acquisition (Note 2g).

Software

Expenses related to the software cost were deferred and are being amortized using the straight-line method over their beneficial periods.

The estimated useful live and amortization method are reviewed at the end of each year end, with the effect of any changes in estimate being accounted for on a prospective basis.

DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i. Impairment of Non - Financial Asset Values

The Company and Subsidiary assess at each end of reporting period, whether there is any indication that an asset may be impaired. If such indication exists, recoverable amount shall be estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the Company and Subsidiary determine the recoverable amount of the Cash-Generating Unit (CGU) to which the asset belongs (the asset's of CGU).

An asset's (either individual asset or CGU) recoverable amount is the higher of the asset's fair value less costs to sell and its value in use. Where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in profit or loss as "impairment losses". In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used to determine the fair value of the asset. These calculations are corroborated by valuation multiples or other available fair value indicators.

Impairment losses, if any, are recognized in profit or loss under expense categories that are consistent with the functions of the impaired assets.

An assessment is made at the end of each reporting period as to whether there is any indication that previously recognized impairment losses recognized for an asset may no longer exist or may have decreased. If such indication exists, the recoverable amount, is estimated. A previously recognized impairment loss for an asset is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss is recognized.

The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior periods. Reversal of an impairment loss is recognized in the consolidated statement of profit or loss and other comprehensive income. After such a reversal is recognized, depreciation charge on the said asset is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

j. Financial Instruments

1. Financial Assets

Initial recognition and measurement

Financial assets are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Company and Subsidiary determine the classification of their financial assets at initial recognition and, where allowed and appropriate, re-evaluate the designation of such assets at each reporting date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Financial Instruments (continued)

1. Financial Assets (continued)

Initial recognition and measurement (continued)

Financial assets are recognized initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way accounts) are recognized on the account date, i.e., the date that the Company and Subsidiary commit to purchase or sell the assets.

The Company and Subsidiary's financial assets include cash and banks, account receivables and other receivables.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

- Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss.

As of December 31, 2017 dan 2016, the Company and Subsidiary do not have financial assets classified as fair value through profit or loss.

- Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such financial assets are carried at amortized cost using the effective interest rate method. Gains and losses are recognized in the consolidated statement of profit or loss and other comprehensive income when the loans and receivables are derecognized or impaired, as well as through the amortization process.

The Company and Subsidiary's cash and banks, account receivables and other receivables are included in this category.

- Held to Maturity (HTM) investments

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as HTM when the Company and Subsidiary have the positive intention and ability to hold them to maturity. After initial measurement, HTM investments are measured at amortized cost using the effective interest method.

This method uses an effective interest rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Gains and losses are recognized in the consolidated statement of profit or loss and other comprehensive income when the investments are derecognized or impaired, as well as through the amortization process.

As of December 31, 2017 and 2016, the Company and Subsidiary do not have any HTM investments.

(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Financial Instruments (continued)

1. Financial Assets (continued)

Subsequent measurement (continued)

- Available-for-sale (AFS) financial assets

AFS financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the three preceding categories. After initial measurement, AFS financial assets are measured at fair value with unrealized gains or losses recognized in stockholders' equity until the investment is derecognized. At that time, the cumulative gain or loss previously recognized in stockholders' equity shall be reclassified to profit or loss comprehensive as a reclassification adjustment.

As of December 31, 2017 and 2016, the Company and Subsidiary do not have any AFS financial assets.

2. Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified as financial liabilities at fair value through profit or loss or financial liabilities at amortized cost, as appropriate. The Company and Subsidiary determine the classification of their financial liabilities at initial recognition.

Financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, inclusive of directly attributable transaction costs.

The Company and Subsidiary's financial liabilities include bank loans, account payables, accrued expenses and other payables.

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

- Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purposes of selling or repurchasing in the short term. Liabilities are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the consolidated statement of profit or loss and other comprehensive income.

The Company and Subsidiary do not have any financial liabilities at fair value through profit or loss as of December 31, 2017 and 2016.

PT INDONESIA FIBREBOARD INDUSTRY AND SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Financial Instruments (continued)

2. Financial Liabilities (continued)

Subsequent measurement (continued)

- Financial liabilities at amortized cost

Financial liabilities that are not classified as at fair value through profit and loss fall into this category and are measured at amortized cost.

After initial recognition, the Company and Subsidiary measured all financial liabilities at amortized cost using effective interest rate method.

The Company and Subsidiary's bank loans, account payables, accrued expenses and other payables are include in this category.

3. Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheets if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

4. Fair Value of Financial Instruments

The fair value of financial instruments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business at the end of the reporting period. For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include using recent arm's length market transactions; references to the current fair value of another instrument that is substantial the same, discounted cash flow analysis; or other valuation models.

Credit risk adjustment

The Company and Subsidiary adjusted the price in the more advantageous market to reflect any differences in counterparty credit risk between instruments traded in that market and the ones being valued for financial asset positions. In determining the fair value of financial liability position, the Company's own credit risk associated with the instrument is taken into account.

5. Impairment of Financial Assets

The Company and Subsidiary assess at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is an objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and when observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Financial Instruments (continued)

5. Impairment of Financial Assets (continued)

- Financial assets carried at amortized cost

For loans and receivables carried at amortized cost, the Company and Subsidiary first assess individually whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant.

If the Company and Subsidiary determine that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, they include the asset in Company and Subsidiary of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognized, are not included in a collective assessment or impairment.

If there is objective evidence that an impairment loss has occurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is directly recognized in the profit or loss.

Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral, if any, has been realized or has been transferred to the Company and Subsidiary.

If, in a subsequently period, the amount of the estimated impairment loss increase or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increases or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is recognized in the consolidated statement of profit or loss and other comprehensive income.

- Financial assets carried at cost

When there is objective evidence that an impairment loss has been incurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses cannot be reversed in the subsequent period.

6. Derecognition of Financial Assets and Liabilities

Financial assets

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial asset) is derecognized when: (1) the rights to receive cash flows from the asset have expired or (2) the Company and Subsidiary have transferred their rights to receive cash flows from the asset or have assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Company and Subsidiary have transferred substantial all the risks and rewards of the asset, or (b) the Company and Subsidiary have neither transferred nor retained substantially all the risks and rewards of the asset, but have transferred control of the asset.

(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Financial Instruments (continued)

6. Derecognition of Financial Assets and Liabilities (continued)

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange of modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in consolidated statement of profit or loss and other comprehensive income.

k. Revenue and Expense Recognition

Revenues from sales are recognized when the goods are delivered to the customers and title has passed. Revenue is measured at the fair value of the considerations received or receivable.

Expenses are recognized when these are incurred (accrual basis) or based on their beneficial periods.

l. Employees' Benefits

Short-term Employee Benefits

The Company and Subsidiary recognize short-term employee benefits liability when services are rendered and the compensation for such services are to be paid within twelve months after the rendering of such services.

Post-employment Benefits

The Company and Subsidiary provides post-employment benefits to its employees in conformity with the requirements of Labor Law No. 13/2003 dated March 25, 2003 and PSAK No. 24, "Employee Benefits". The said provision are estimated using the projected-unit-credit actuarial valuation method.

Re-measurements, comprising of actuarial gains and losses, are recognized immediately in the statement of financial position with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which the occur. Re-measurement are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss at the earlier between:

- i. The date of the plan amendment or curtailment, and
- ii. The date the Company and Subsidiary recognize related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability. The Company and Subsidiary recognized the following changes in the net defined benefit obligation under "General and Administrative Expenses" as appropriate in the consolidated statement of profit or loss and other comprehensive income:

- i. Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements, and
- ii. Net interest expense or income.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m. Foreign Currency Transactions and Balances

Transactions involving foreign currencies are recorded at the rates of exchange prevailing at the time the transactions are made. At statement of financial position date, monetary assets and liabilities denominated in foreign currencies are adjusted to Rupiah based on the average rates of exchange published by Bank Indonesia at that date. The resulting gains or losses are credited or charged to the current year operations.

As of consolidated statement of financial position date, the average exchanges rates of main currencies used are as follows:

	2017	2016
United States Dollar (US\$) 1	13,548	13,436
Europe Euro (EUR) 1	16,174	14,162
Renminbi (RMB) 1	2,073	1,937
Japanese Yen (JP¥) 1	120	115

n. Income Taxes

Current tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as the reporting date in the countries where the Company and Subsidiary operate and generate taxable income.

Interests and penalties are presented as part of other operating income or expenses since they are not considered as part of income tax expense.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the end of the reporting period.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- i. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of transaction, affects neither accounting profit nor taxable profit or loss,
- ii. In respect of taxable temporary differences associated with investment in subsidiary, when the timing of reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences and carry-forward of unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, and carry forward of unused tax losses can be utilized, except:

- i. Where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor the taxable profit or loss, or

PT INDONESIA FIBREBOARD INDUSTRY AND SUBSIDIARY

DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

n. Income Taxes (continued)

Deferred tax (continued)

- ii. In respect of deductible temporary differences associated with investments in subsidiary, deferred tax assets are recognized only to extent that it is probable that the temporary differences will not reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at the end of each reporting period and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted as at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exist to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Value Added Tax

Revenue, expenses and assets are recognized net of the amount of value added tax ("VAT") except:

- Where the VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense of the asset or as part of the expense item as applicable, and
- Receivables and payables that are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the taxation authorities is included as part of receivables or payables in the consolidated statement of financial position.

Final Tax

In accordance with the tax regulation in Indonesia, final tax is applied to the gross value of transactions, even when the parties carrying the transaction recognizing loss.

Final tax is scoped out from PSAK 46: Income Tax.

o. Assets and Liabilities of Tax Amnesty

Tax Amnesty Assets and Liabilities are recognized upon the issuance of Surat Keterangan Pengampunan Pajak (SKPP) by the Ministry of Finance of Republic of Indonesia, and they are not recognized as net amount (offset). The difference between Tax Amnesty Assets and Tax Amnesty Liabilities are recognized as Additional Paid-in Capital.

Tax Amnesty Assets are initially recognized at the value stated in SKPP.

PT INDONESIA FIBREBOARD INDUSTRY AND SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

o. Assets and Liabilities of Tax Amnesty (continued)

Tax Amnesty Liabilities are initially measured at the amount of cash or cash equivalents to be settled by the Company and Subsidiary according to the contractual obligation with respect to the acquisition of respective Tax Amnesty Assets.

The redemption money paid by the Company and Subsidiary to obtain the tax amnesty is recognized as expense in the period in which the Company receives SKPP.

After initial recognition, Tax Amnesty Assets and Liabilities are measured in accordance with respective relevant SAKs according to the classification of each Tax Amnesty Assets and Liabilities.

In accordance with PSAK No. 70, the outstanding amount of claim, deferred tax assets and provision in the profit and loss will be adjusted in the period of Declaration Letter for Tax Amnesty ("Surat Pernyataan Harta untuk Pengampunan Pajak") submission as a result of the loss of right which had been recognized as claim for tax refund, deferred tax assets of accumulated fiscal loss (not compensated) and tax provision in accordance with the Tax Amnesty Law.

p. Provisions

Provisions are recognized when the Company and Subsidiary have a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

q. Leases

The Company and Subsidiary classifies leases based on the extent to which risks and rewards incidental to the ownership of a lessor or the lessee, and the substance of the transaction rather than the form of the contract, at inception date.

Finance Lease

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an asset. As of December 31, 2017 and 2016, the Company and Subsidiary do not have any finance lease transaction.

Operating Lease

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of the leased asset. Accordingly, the lease payments made by the Company and Subsidiary as a lessee are recognized as expense using the straight-line method over the lease term.

r. Fair Value Measurement

The Company and Subsidiary initially measure financial instruments at fair value, and assets and liabilities of the acquirees upon business combinations. The Company and Subsidiary also measure certain recoverable amounts of the cash generating unit ("CGU") using fair value less cost of disposal ("FVLCD"), and non-interest bearing receivables at their fair values.

PT INDONESIA FIBREBOARD INDUSTRY AND SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

r. Fair Value Measurement (continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Company and Subsidiary.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the assets in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company and Subsidiary use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- i. Level 1-Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- ii. Level 2-Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- iii. Level 3-Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on recurring basis, the Company and Subsidiary determine whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

s. Change in accounting policies and disclosures

The Company and Subsidiary adopted PSAK which effective on January 1, 2017 which is considered relevant to the consolidated financial statements as follows:

- 1. Amendment PSAK No. 1, "Presentation of Financial Statements" regarding "Disclosure Initiative".
- 2. Annual improvement to PSAK No. 24, "Employee Benefits".
- 3. Annual improvement to PSAK No. 58, "Noncurrent Assets Held for Sale and Discontinued Operations".
- 4. Annual improvement to PSAK No. 60, "Financial Instrument: Disclosures".

The adoption of the new and revised accounting standards above do not have significant impact to the consolidated financial statements.

3. SOURCE OF ESTIMATION UNCERTAINTY

The preparation of the consolidated financial statements, in conformity with Indonesian Financial Accounting Standards, requires management to make judgments, estimations and assumptions that affect amounts reported therein. Due to inherent uncertainty in making estimates, actual results reported in future periods may differ from those estimates.

Judgments

The following judgments are made by management in the process of applying the Company and Subsidiary's accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements:

Determination of Functional Currency

The currency of Company and Subsidiary is the currency of the primary economic environment in which Company and Subsidiary operations. It is the currency that mainly influences the revenue and cost from operations.

Classification of Financial Assets and Financial Liabilities

The Company and Subsidiary determine the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 55. Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Company and its Subsidiary's accounting policies disclosed in Note 2j.

Allowance for Impairment of Account Receivables

The Company and Subsidiary evaluate specific accounts where it has information that certain customers are unable to meet their financial obligations. In these cases, the Company and Subsidiary use judgment, based on available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on any available third party credit reports and known market factors, to record specific provisions for customers against amounts due to reduce its receivable amounts that the Company and Subsidiary expected to collect. These specific provisions are re-evaluated and adjusted as additional information received affects the amounts of allowance for impairment of accounts receivable.

The carrying amount of the Company and Subsidiary's account receivables as of December 31, 2017 and 2016 amounted to Rp 47,648,656,923 and Rp 48,979,160,550. Further details are disclosed in Note 5.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year/period are disclosed below. The Company and Subsidiary based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Company and Subsidiary's. Such changes are reflected in the assumptions as they occur.

3. SOURCE OF ESTIMATION UNCERTAINTY (continued)

Estimates and Assumptions (continued)

Employee Benefits

The determination of the Company and its Subsidiary employee benefits liabilities is dependent on its selection of certain assumptions used by the independent actuaries in calculating such amounts. Those assumptions include, among others, discount rates, annual salary increase rate, annual employee turn-over rate, disability rate, retirement age and mortality rate. The Company and Subsidiary believed that its assumptions are reasonable and appropriate. The carrying amount of the Company and Subsidiary's estimated liabilities for employees' benefits as of December 31, 2017 and 2016 amounted to Rp 13,561,865,554 and Rp 9,903,412,133. Further details are disclosed in Note 16.

Depreciation of Fixed Assets (FA)

The costs of all the fixed assets are depreciated on a straight-line method their estimated useful lives. Management properly estimates the useful lives of these FA ranging rate 4 to 20 per years. These are common life expectations applied in the industries where the Company and Subsidiary's conduct its businesses. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual value of these assets, and therefore future depreciation charges could be revised. The net carrying amount of the Company and Subsidiary's FA as of December 31, 2017 and 2016 amounted to Rp 859,045,248,386 and Rp 906,472,593,814. Further details are disclosed in Note 9.

Income Tax

Significant judgment is involved in determining provision for corporate income tax. There are certain transaction and computation for which the ultimate tax determination is uncertain during the ordinary course of business. The Company and Subsidiary recognize liabilities for expected corporate income tax issues based on estimates of whether additional corporate income tax will be due.

Financial Instruments

The Company and Subsidiary carry certain financial assets and liabilities at fair value, which requires the use of accounting estimates. While significant components of fair value measurement were determined using verifiable objective evidences, the amount of changes in fair value would differ if the Company and Subsidiary utilized a different valuation methodology. Any changes in a fair value of these financial assets and liabilities would directly affect the Company and Subsidiary's financial statements. Further details are discussed in Note 23.

11. BANK LOANS (continued)

Norddeutsche Landesbank Girozentrale Hanover (Nord LB) (continued)

For accounting and financial reporting purposes, the above bank loans is carried and presented in the consolidated statement of financial position at amortized cost using effective interest as of December 31, 2017 and 2016. The annual effective interest rate ranging from 2.34% up to 2.62% and 2.28% up to 2.55%, respectively.

The contract value of the above bank loans as of December 31, 2017 is amounted to US\$ 11,276,458, US\$ 1,316,021, US\$ 166,499 for Tranche A, Tranche B and Tranche C, respectively. The contract value of the above bank loans as of December 31, 2016 is amounted to US\$ 14,095,573, US\$ 1,645,027, US\$ 208,124 for Tranche A, Tranche B and Tranche C, respectively.

The loan facilities is provided to principally finance the purchase of services and equipment for the implementation and the construction of medium density fibreboard production plant of the Company. This facilities interest rate is floating rate, at the rate per annum from time to time determined by the lender to the aggregate of the margin 1.5% plus LIBOR 6 months. The loan facilities will be repaid by 20 successive semi annual installments and is secured by corporate guarantee from PT Adrindo Intiperkasa, the Company's shareholder.

PT Bank CIMB Niaga Tbk (Bank CIMB Niaga)

Based on loan agreement dated December 29, 2011, the Company obtained term loan facility for refinance the investment project in rupiah currency from Bank CIMB Niaga with the maximum loan amounting to Rp 220,000,000,000, which will be matured on October 27, 2012.

On November 23, 2012, the Company signed the Amendment and Restatement of the loan agreement dated December 29, 2011. In the amendment of the loan agreement, the term loan facility amounted to Rp 220,000,000,000 had been allocated to Investment Loan I (PI I) and the Company obtained additional loan facilities, which consist of:

- a. Investment Loan II (PI II) facility with the maximum amount of Rp 80,000,000,000
- b. Fixed Loan revolving facility with the maximum amount of Rp 35,000,000,000
- c. Overdraft Loan facility with the maximum amount of Rp 15,000,000,000

The Investment Loan I facility is repayable in five years monthly installment with the last installment in December 2017. The purpose of the loan is to finance the construction of Medium Density Fibreboard (MDF) Plant.

The Investment Loan II is repayable in five years monthly installment, plus 24 months grace periods, with the last installment in November 2019. The purpose of the loan is to finance or refinance the relocation of resin plant and finished good warehouse.

Based on the Amendment of Loan Agreement dated July 28, 2016, Bank CIMB Niaga agreed to change maximum facilities and additional loan facilities, which consists of:

- a. Investment Loan I (PI) facility from the maximum amount of Rp 220,000,000,000 became Rp 66,000,000,000, which will be mature on December 26, 2017 and with annual interest of 10.75% in 2016.
- b. Investment Loan II (PII) facility from the maximum amount of Rp 80,000,000,000 became Rp 54,666,666,673, which will be mature on November 23, 2019 and with annual interest of 10.75% in 2016.

23. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES

Potential risks arising from financial instruments of the Company and Subsidiary relate to interest rate risk, credit risk and liquidity risk. Policies of the importance of managing this risk level has increased significantly by considering some parameters change and volatility of financial markets both in Indonesia and internationally.

The Company and Subsidiary's Directors review and approve risk policies covering the risk tolerance in the strategy to manage the risks which are summarized below.

Interest Rate Risk

Interest rate risk is the risk of fair value or future cash flows of financial instruments fluctuate due to changes in market interest rates. Exposure of the Company and Subsidiary against changes in market interest rates relates to both short-term and long-term bank loans.

The Company and Subsidiary are financed through interest-bearing bank loans. Therefore, the Company and Subsidiary's exposure to market risk for changes in interest rates relate primarily to its short-term and long-term bank loans. The Company and Subsidiary's policies are to obtain the most favorable interest rates available without increasing its foreign currency exposure by managing its interest cost by making a combination of debt, long-term loans with fixed interest rates and floating interest rates.

23. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES (continued)

Interest Rate Risk (continued)

The following table sets out the carrying amounts, by maturity, of the Company and Subsidiary's financial instruments that are exposed to interest rate risk:

2017			
Floating rate	Less than one year	More than one year	Carrying value
Cash in bank	11,077,852,463	-	11,077,852,463
Short-term loans	(35,000,000,000)	-	(35,000,000,000)
Current maturities of long-term loans	(69,894,661,204)	-	(69,894,661,204)
Long-terms loans-net of current maturities	-	(155,699,390,413)	(155,699,390,413)
Total	(93,816,808,741)	(155,699,390,413)	(249,516,199,154)

2016			
Floating rate	Less than one year	More than one year	Carrying value
Cash in bank	10,229,767,547	-	10,229,767,547
Short-term loans	(38,339,857,284)	-	(38,339,857,284)
Current maturities of long-term loans	(113,537,409,789)	-	(113,537,409,789)
Long-terms loans-net of current maturities	-	(223,660,911,664)	(223,660,911,664)
Total	(141,647,499,526)	(223,660,911,664)	(365,308,411,190)

Credit Risk

Credit risk is the risk that the Company and Subsidiary will incur a loss arising from the customer, client or other party who failed to meet their contractual obligations. There is no significant concentration of credit risk. The Company and Subsidiary manage and control credit risk by setting limits of acceptable risk for customers and monitor the exposure associated with these restrictions.

The Company and Subsidiary conduct business relationships only with recognized and credible third parties. The Company and Subsidiary have a policy to go through customer credit verification procedures. In addition, the amount of receivables are monitored continuously to reduce the risk for doubtful accounts.

Liquidity Risk

Liquidity risk is a risk arising when the cash flow position of the Company and Subsidiary not enough to cover the liabilities which become due. In managing liquidity risk, the Company and Subsidiary monitor and maintain levels of cash and cash equivalents deemed adequate to finance the operations of the Company and Subsidiary, and to overcome the impact of fluctuations in cash flow. The Company and Subsidiary also regularly evaluate cash flow projections and actual cash flows, including the schedule of maturing long-term debt, and continue to examine the condition of financial markets to take a fundraising initiative. These activities may include bank loans.

Account payables	8,110,783,851	10,264,447,252	8,110,783,851	10,264,447,252
Accrued expenses	5,867,121,305	4,261,538,294	5,867,121,305	4,261,538,294
Other payables	14,673,725,922	14,351,208,593	14,673,725,922	14,351,208,593
Current maturities of long-term loan:				
Bank loans	69,894,661,204	113,537,409,789	69,894,661,204	113,537,409,789
Total Current Financial Liabilities	133,546,292,282	180,754,461,212	133,546,292,282	180,754,461,212
Non-Current Financial Liabilities				
Long-term loan-net of current maturities:				
Bank loans	155,699,390,413	223,660,911,664	155,699,390,413	223,660,911,664
Other payable	48,185,023,496	207,785,023,496	48,185,023,496	207,785,023,496
Total Non-Current Financial Liabilities	203,884,413,909	431,445,935,160	203,884,413,909	431,445,935,160
Total Financial Liabilities	337,430,706,191	612,200,396,372	337,430,706,191	612,200,396,372

The fair values of the financial assets and liabilities are determined based on the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

Financial instruments presented in the consolidated statement of financial position are carried at fair value, otherwise, they are presented at carrying amounts as either these are reasonable approximation of fair values or their fair values cannot be reliably measured.

PT INDONESIA FIBREBOARD INDUSTRY AND SUBSIDIARY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2017
AND FOR THE YEAR THEN ENDED
(EXPRESSED IN RUPIAH, UNLESS OTHERWISE STATED)

23. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES (continued)

Fair Value of Financial Instruments (continued)

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate such value:

The carrying value of cash and banks, account receivables, other receivables, short-term bank loans, account payables, other payables, accrued expenses and current maturities of long-term bank loans approximate their fair values due to their short-term nature.

The carrying values of long-term bank loans-net of currents maturities with floating interest rates approximate their fair values as they are re-priced frequently.

Management has determined that the fair values of refundable deposits do not have quoted prices in active markets and/or fair value cannot be measured reliably, are reasonably approximate their carrying amounts.

24. NON-CASH ACTIVITIES

Supplementary information to the consolidated statement of cash flows relating to non-cash activities are as follows:

	2017	2016
Reclassification of non-current liabilities - other payable to advance for capital stock subscription	200,000,000,000	-
Reclassification of construction in progress - building to inventory - spareparts	-	337,571,560
Addition of fixed assets through tax amnesty	-	65,000,000

25. SIGNIFICANT EVENT AFTER THE REPORTING PERIOD

a. Based on the amendment of Loan Agreement dated January 22, 2018, Bank CIMB Niaga agreed to change maximum facilities and maturity date, which consists of:

- a. Investment Loan I (PI I) facility from the maximum amount of Rp 51,333,333,364 became Rp 0.
- b. Investment Loan II (PI II) facility from the maximum amount of Rp 49,333,333,341 became Rp 30,666,666,679.
- c. Special Transaction Loan I (PTK I) facility from the maximum amount of Rp 17,600,000,000 became Rp 11,440,000,000.
- d. Special Transaction Loan II (PTK II) facility from the maximum amount of Rp 18,000,000,000 became Rp 11,700,000,000.

Based on those amendment loan, the Fixed Loan, Overdraft facilities, Discounted Notes Export and Export Loan Facility have been extended until November 23, 2018.

- b. On November 24, 2016, the Company and Bank CIMB Niaga entered into Sale and Purchase of Foreign Exchange Agreement with presettlement limit with maximum facility amounted to US\$ 3,000,000, which will be mature on November 23, 2018. On March 1, 2018, the Company made a dealing of forward transaction amounted to US\$ 500,000 with spot rate Rp 13,772 and swap rate Rp 116. This transaction will be mature on July 5, 2018.

26. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The following summarizes several Statement of Financial Accounting Standards (PSAK) and the Interpretation of Financial Accounting Standards (ISAK) which were issued by the Financial Accounting Standards Board (DSAK) - IAI and are relevant to the Company and Subsidiary, but not yet effective on consolidated financial statements as of December 31, 2017:

- PSAK No. 2 (2016 Amendment), "Disclosure Initiative on Statement of Cash Flow", effective January 1, 2018 with earlier application is permitted.
- PSAK No. 46 (Amandemen 2016), "Taxations - Recognition of deferred tax assets for unrealised losses", effective January 1, 2018 with earlier application is permitted.
- ISAK No. 33 - Foreign currency Transaction and Advance Consideration, effective January 1, 2019 with earlier application is permitted.
- PSAK No. 71: Financial Instruments, adopted from IFRS No. 9, effective January 1, 2020 with earlier application is permitted.
- PSAK No. 73: Leases, adopted from IFRS 16, effective January 1, 2020 with earlier application is permitted, but not before an entity applies PSAK No. 72: Revenue from Contracts with Customers.

The Company and Subsidiary are presently evaluating and have not yet determined the effects of these accounting standards on the consolidated financial statements.

27. FINANCIAL INFORMATION OF THE PARENT ENTITY ONLY

The financial information of the parent entity only presents statement of financial position, statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows information in which investments in its subsidiary were accounted using the cost method.

The following information is the separate financial statements of PT Indonesia Fibreboard Industry, parent entity, which is presented as supplementary information to the consolidated financial statements of PT Indonesia Fibreboard Industry and its Subsidiary as of December 31, 2017 and for the year then ended.
